Elevation Profile

The Danescombe Valley from Calstock Station

Start/finish	Calstock Station SX 434 687, PL18 9RS
Distance	3¼ miles (6km)
Time	2 hours
Terrain	Woodland tracks and paths, some rough and narrow; regular ascents/descents; quiet level lane on return
Toilets	None on route
Difficulty Rating	Strenuous
Public Transport	Rail services Tamar Valley Line to/from Gunnislake and Plymouth; bus services to/from Callington, Gunnislake and Tavistock

Dogs	Under control at all times
Map	OS Explorer 108 Lower Tamar Valley & Plymouth; OS Landranger 201 Plymouth & Launceston
Note	Parking at the station is reserved for rail users. If arriving by car, park above the station on Sand Lane (walk downhill to join the route) or in the public car park by the quay and walk towards the station to pick up the route at Point 2 (Higher Kelly).

A short yet adventurous exploration, packed with historic interest, utilising the Danescombe Valley's intricate network of woodland paths and tracks.

A fascinating walk which delves into Calstock's 19th-century past, when the village was an important port. Archive photos reveal a time when industrial activity was at its height; valleys-side paths cross open ground above a line of riverside quays, where traditional Tamar sailing barges wait to unload their cargoes. This interesting figure-of-eight walk explores this complex network of (now) woodland paths and encounters the old mineral railway incline, a derelict sawmill, Wheal Calstock and Cotehele Consols, and a run of old quays along the Tamar.

The Route

1. Calstock Station (SX 434 687). Head down the tarmac access path, following signs to the village centre, quay and Cotehele, to reach Sand Lane; cross over and turn right, uphill, to pass under the viaduct (constructed 1904–7 to connect the railway at Bere Alston with the East Cornwall Mineral Railway, later converted for passenger use as far as Gunnislake).

2. Higher Kelly (SX 433 687). After 20 yards bear left along Higher Kelly (dead end), keeping straight on at an early junction. This high-level lane affords wonderful views towards Cotehele House, peeping out of the trees high above the river, and passes spectacular houses with ingeniously terraced gardens. At the end of the lane pick up a narrow path, passing to the right of a house, and ascend steadily through woodland. The path levels above a house and garden, then ascends gently, passing a footpath (right).

A bridge carries the path over the old East Cornwall Mineral Railway incline; the railway opened in 1872 to service mines between Calstock and Kelly Bray (for Callington), and was connected to the Tamar's quays by a rope-worked counterbalance inclined plane which raised and lowered trucks up and down the steep valley side.

3. Top of steps (SX 426 691). Immediately over the bridge turn left down steps; turn right, downhill, to cross two more bridges. Bear left to a path junction.

4. Path junction (SX 426 690). Turn sharp left on a rough and rocky way between high walls, passing under the last bridge, heading towards the Danescombe Valley. The path reaches a track T-junction. Turn left, downhill, passing picturesque cottages, to meet the riverside lane by Danescombe Valley House.

5. Danescombe Valley House (SX 426 689). Turn right to pass Danescombe Pottery and cottages to reach a path junction (Cotehele House left). The steep, south-facing (now wooded slopes) on the right were once home to market gardens growing fruit and flowers.

Keep straight on to pass the derelict Danescombe Sawmill; follow the track on alongside the stream. Ignore a path bearing left, uphill, and continue on to reach Wheal Calstock (later, Danescombe Valley Mine), where old mine buildings have been converted into cottages. The track crosses the stream and soon passes the huge converted engine house and mine buildings of Cotehele Consols, an old copper and arsenic mine. Continue up the valley, the path now rough and rocky, ignoring any side paths. The path reaches a lane in the tucked-away hamlet of Danescombe (the remains of an old papermill are just a little further upstream).

The Danescombe Valley from Calstock Station

6. Danescombe Farm (SX 419 697). Turn right up the lane, ascending steeply.

Opposite a dead end sign bear right through a gate on a public footpath. Follow the narrow path down through woodland, passing a derelict building. Through a gap in the trees look out for the Prospect Tower on the Cotehele estate: a three-sided folly said by some to commemorate the visit of King George III and Queen Charlotte in 1789.

The path passes directly in front of a house, then descends to meet a wider path.

7. Path junction at Kellywood Cottage (SX 423 694). Keep straight on through woodland; you'll start to get glimpses of floodplain fields on the opposite side of the river.

Pass a path junction (met on Point 4) and pick up the outward route, descending past cottages to the riverside lane (Point 5).

Keep straight on past Danescombe Valley House, built in the 1850s and, for much of the 20th century, run as a small hotel for visitors arriving by boat at Kingfisher Quay below.

Note a house signed 'Danescombe Quay 1822', then pass a huge limekiln and go under a bridge, which carried the inclined plane to the riverside. Another limekiln is soon passed opposite Calstock boatyard (site of Kelly Quay). Pass under the viaduct; note 'Steamer Quay' towards the end of Lower Kelly.

8. Calstock (SX 432 686). Meet Commercial Road and turn left, uphill, to find the station on the right.
