

Transparency of Funding for approved projects – July 2021 to March 2026

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Clamoak Orchard Field	Bere Alston	£6,035.00	£7,216.74	08/10/2021	15/03/2022	TV001
FiPL has helped fund tree planting, orchard creation and hedgerow planting.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Cherry Lane Orchard Retreat	Bere Ferrers	£4,910.00	£8,719.00	18/10/2021	15/03/2023	TV002
FiPL has helped orchard creation, meadow creation, fencing, access gateway, temporary structure for tool storage and for shelter for volunteers and green prescribing.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Ms P Palmes	Bere Ferrers	£28,960.60	£37,364.00	20/10/2021	15/03/2024	TV003
FiPL has helped fund a bird hide, wildlife tower, hedge laying, woodland coppicing, hosting of volunteer conservation work days, hedge planting, meadow creation, visitor car park works						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
W F Coombe & Son	Dupath	£9,994.30	13,077.50	18/10/2021	15/04/2023	TV005
FiPL has helped fund fencing off streams and woodland on the farm to protect these habitats from grazing and to offer increased access to these areas for visiting school groups. Fencing will also protect historic Cornish hedge banks from stock damage. To place rubber matting to improve the welfare of cattle and to lower their greenhouse gas emissions. Record the impact of the shed improvements by recording growth rates verses a control group.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Tamar Grow Local CIC	Callington	£48,960.00	£54,515.00	19/10/2021	15/03/2023	TV006
FiPL has helped fund the demonstration market garden and small machinery hub, native wildflower and tree propagation for habitat restoration.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Harling Farm	Bere Alston	£22,958.31	£25,846.14	01/11/2021	31/03/2022	TV007
FiPL has helped fund access tracks in woodland and meadow, wildflower over sowing, management of species-rich grassland and woodland. Native meadow wildflower strips. Installation of small and medium sized wildlife boxes, natural beehive and wildlife cameras.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Tregaver	Gunnislake	£4,168.11	£6,085.48	19/10/2021	15/03/2022	TV009
FiPL has helped fund stone wall restoration, fencing, orchard planting, tree planting.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Boheterick Farm	Boheterick	£22,266.80	£24,633.50	19/10/2022	15/03/2022	TV010
FiPL has helped fund farm access and interpretation, fencing, farm trail, pollinator strip, woodland edge management, education and access buildings.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
J & RJ Steer and Partners	Gulworthy	£10,934.00	£23,500.00	18/11/2021	15/03/2022	TV011
FiPL has helped fund cattle tracks to reduce surface wash and soil compaction. Extend grazing area and grazing period - reduced housing costs and associated carbon costs. Pond creation.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
E Marsh	Harrowbarrow	£12,749.70	£12,749.70	18/11/2021	30/11/2022	TV012
FiPL has funded tree planting (standards, woodland and fruit), woodland management and enhancement, hay meadow restoration, pond creation, wildlife boxes.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Denham Orchard CIC	Bere Alston	£1,000.00	£10,000.00	18/11/2021	15/03/2022	TV014
FiPL has helped fund orchard creation, fencing to protect current and new orchards, stabilisation of historic building.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
F M Blowey and Son	Sydenham Damerel	£34,735.40	£41,021.40	21/01/2022	15/03/2023	TV015

FiPL has helped funding enhancing water management and soil health, roof over the collecting yard, soil testing year 1 & 3, enhancing and connecting wildlife habitats, plant 217m of new hedgerows connecting a variety of habitats including fruit and hedgerow trees with associated fences where none, plant 5 in field broadleaf trees, clearance of holly in existing mature woodland and selective coppicing, stone 2 gateways.

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
T.J.Nattle & Partners	Latchley	£9,983.76	£9,983.76	03/05/2022	31/03/2024	TV016
FiPL has funded enhancing, connecting and protecting wildlife habitats across the farm holdings. To protect a watercourse gully from stock to ensure less disturbance to the habitat. To increase biodiversity and soil heath through increasing use of herbal leys in three fields. To protect and enhance hedges and earth bank repairs. To extend area where sand martins are nesting in a farmyard barn. To plant successional fruit trees in existing orchard.						

[illegible]

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
D & A Hutchins	Gulworthy	£67,002.09	£67,002.09	23/05/2022	31/03/2024	TV018
FiPL has funded the farm Soil Restoration Scheme. The implementation of a rotational grazing and cattle management scheme, generating positive outcomes for wildlife, water quality, carbon sequestration and landscape amenity.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
The National Trust - Cotehele	Cotehele	£32,429.00	£37,270.00	21/01/2022	15/03/2023	TV020
FiPL has helped creating and maintaining Lowland Meadows and maintaining Reedbeds. This project involves the purchase of specialist equipment to harvest meadow seed and sow it onto to receptor sites. New meadows created will, within several years of sowing, become wildflower seed donor sites. This will address the lack of availability of locally sourced meadow seed to create Cornish lowland meadows. Equipment to be purchased will complement existing equipment available and located strategically to enable efficient sharing thus cost-effective purchases.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
The National Trust - Antony	Antony	£21,960.00	£27,450.00	04/05/2022	31/03/2024	TV021
FiPL has helped fund grassland improvement and wildflower establishment. The objective of this project is to increase the area of lowland meadow in Cornwall. This habitat is in serious decline with 90% being lost since the 1930s, we will address this by creating and improving new lowland meadows and improve the species diversity of existing meadows thus linking habitats across the greater Antony estate. The result will be bigger, better, more joined up space for nature in Cornwall. This project will provide for nature, people and climate change resilience.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Harewood Farm	Harewood	£11,732.50	£11,732.50	21/01/2022	15/03/2022	TV022
FiPL has helped fund to conserve, protect and enhance the natural beauty of our hay meadows and hedgerows.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
BJ Howlett & Sons	Luckett	£16,697.00	£17,481.00	21/01/2022	15/03/2024	TV023
FiPL has helped fund to create a wildlife rich & bio-diverse habitat within a 3 acre meadow with spring fed pond feature, offering spread permissive access, educational, health and wellbeing resource. To further the opportunities of local walkers to explore alternative linear permissive paths within historic mining sites, linking with an established route (known locally as Apple Way) with the main Discovery Trail. The project will allow greater land management measures to mitigate flood risk from the upper part of the farm & built environment (WEIF Project) and compliment comprehensive soil testing & full farm carbon audit (Carbon Cutting Tool Kit), plus additional sequestration through the planting of a small community fruit orchard.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
M Frampton-Price	Latchley	£3,560.00	£4,450.00	14/02/2022	15/03/2022	TV024
FiPL has helped fund nature trail land management to effectively manage the woodland and scrub for biodiversity to create meandering footpaths (rides) with small clearings to encourage plant, animal and fungal diversity.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
G Hillson	Bere Alston	£13,051.50	£21,753.00	09/05/2022	31/03/2022	TV026
FiPL has help fund Hedge habitat restoration to improve diversity and reduce impact of views of pylons on the farm along with soil improvement through herbal leys. To reinstate hedges that were removed in the past. To restore existing hedges and improving the habitat within the hedges. Install stock proof fencing to ensure hedges both new and existing are protected from stock. Herbal leys to improve soil health to improve water infiltration and build soil organic matter. To undertake soil testing.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Agricola Growers Ltd	Landulph	£35,733.41	£67,495.60	13/06/2022	31/03/2024	TV028
FiPL has helped fund Haye Farm Landscape Protection and Enhancement Project (2022 – 2024). This project is designed with several aims. Without a doubt, one of the key drivers is to support and continue to develop a sustainable and economic farming business within the Tamar Valley. Through doing so, this provides local employment and economic growth. Alongside, and integral to this, is the ability and desire to encourage and enable more local engagement with the local landscape and in particular, the creation of a community orchard. The project will also enable management of the SSSI reedbed adjacent to the River Tamar, additional orchard management and the creation of a pond, all of which will support and encourage wildlife and provide much needed carbon sinks. New cattle shed will improve the appearance from the Tamar and further a change in farming policy reducing the intensive arable cropping enabling a more pastoral system with native breeds as well as reducing pollution within the yard area and field poaching with associated runoff.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Old Solomons Farm	Latchley	£14,817.00	£24,199.90	01/06/2022	31/03/2024	TV030
FiPL has helped fund woodland and hedges, to increase biodiversity and carbon sequestration on the farm, to bring the woodland back into a managed state after 80 years of neglect, to restore and manage traditional hedges and orchard and to improve the management and biodiversity of the pasture.						

[illegible]

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Pentillie Castle & Estate	Saltash	£6,489.76	£6,489.76	01/08/2022	31/03/2024	TV033
FiPL has funded hedge & parkland Improvements – to improve density and biodiversity of hedgerows along the perimeter of historically important Repton designed parkland, by use of hedge laying and gapping up. We will also replenish parkland trees where old trees have succumbed to storms, or old age, enhancing the Repton designed parkland.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Coryton Farms	Saltash	£2,277.50	£2,277.50	06/07/2022	31/03/2023	TV034
FiPL has funded Orchard and Hedgerow replanting with fruit bearing trees. Clifton Orchard - To replant an ancient fruit orchard at Clifton and plant flowering and fruit bearing trees on hedgerows for the benefit of wildlife, and to enhance the landscape. Hedgerow Trees - To compensate for the loss of hedgerow ash trees and improve the habitat for bees and birds whilst making Tinnel Lane a more attractive and rewarding walk for the many people who use it for recreation. The view of the landscape will be improved with the diversity of flowering trees.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Best Farms Partnership Ltd	Landulph	£4,167.24	£7,629.01	26/10/2022	31/03/2023	TV035
FiPL has funded reinstatement of two orchards comprising 60 local variety fruit trees within two fields at Landulph Farm.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
J Coiley	Yelverton	£6,909.05	£12,790.55	28/09/2022	31/03/2023	TV036
FiPL has helped fund hedgerow laying, local varieties fruit orchard, tree management, hazel coppicing, watercourse maintenance, meadow restoration, tree planting, animal box installation, path building.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
A & K Brown, Newton Farm	Callington	£1,437.12	£2,008.80	17/08/2022	31/03/2024	TV037
FiPL has helped fund 3 Nofence cattle collars will enable controlled grazing around the Newton Farm and enable the Farm to show case this emerging technology as a method of habitat creation. In the case of Newton Farm, it is less expensive than new fencing, less visually intrusive than fencing and does not have the environmental impact of redundant wire and tanalised timber use. Nofence cattle collars enable nuanced grazing patterns to be developed such as strip grazing, grazing that protects newly planted trees will at the same time allows woodland and orchard grazing. Signage will explain and elucidate to the public how Newton Farm will show case conservation grazing to increase biodiversity of flora and fauna, sequestrate carbon and reduce flooding downstream by improving in soil.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Wheal Farm	Callington	£4,706.26	£10,573.16	17/08/2022	31/03/2024	TV038
FiPL has helped fund planting 30 Mixed Species Fruit Trees, off grid solar system for sustainable use of existing borehole pump, irrigation pumps for crops and livestock, poultry processing equipment.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
The National Trust - Buckland Abbey	Buckland	£13,484.52	£14,121.97	10/10/2022	31/03/2024	TV039
FiPL has helped fund restoration of traditional hedgerows through hedgerow planting, hedge laying, education for staff, volunteers and members of the public, new interpretation within the wider estate and kitchen garden to increase awareness of our history, changing climate, adaption and nature conservation.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
M Smith	Calstock	£6,707.20	£8,460.00	05/10/2022	31/03/2022	TV040
FiPL has helped fund removal of vegetation, structural survey and consolidation/renovation of Grade II Listed lime kiln (built 1860): adjacent loading/storage area: incline plane retaining wall.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Trewint produce	Saltash	£15,072.93	£13,514.50	26/09/2022	31/03/2024	TV041
FiPL has helped fund creating a fenced mixed hedgerow perimeter with native tree and shrubs, creating a pond habitat, developing agroforestry via alley cropping alongside restoration of a small traditional farm building.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
D Dance	Buckland Monachorum	£4,458.73	£7,278.73	01/10/2022	31/03/2024	TV042
FiPL has funded Improving water management by realignment of ditches, creating ponds, scrapes and leaky dams to the western edges of fields. Laying hedges around the fields in stages, replanting where necessary. Improving biodiversity of meadow by reducing grazing pressure and over sowing or plug planting. Replanting orchard with heritage fruit trees.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
J & RJ Steer and Partners	Gulworthy	£4,461.01	£4,461.01	06/02/2023	31/03/2023	TV045
FiPL has helped fund this project to fence off a stream and lay water pipe infrastructure so that we can install new water troughs.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Ferry Farm	Calstock	£12,020.50	£12,020.50	01/07/2023	31/03/2025	TV047
FiPL has help funded essential infrastructure to be able to conduct educational visits including mains water connection, hand-washing facilities and foundation, composting toilet, improving access and parking area (through a potential further FiPL application) and Education Access Funding.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Harling Farm	Bere Alston	£13,384.12	£30,736.14	29/09/2023	31/03/2024	TV048
FiPL has helped fund project which forms a part of a much wider suite of programmes and schemes we have undertaken, in the process of or have planned on our farm that enhance and complement the project outcomes. We have obtained our Green Care Quality Mark, awarded by Leaf						

Education, and are now an Accredited Educational Facility for the Rare Breeds Survival Trust, a Model farm for the TVAONB and provide Educational Visits for the RPA. We are keen to introduce new facilities on the farm to provide further inclusive learning and volunteering opportunities. We are CEVAS Trained in Education & Therapy to ensure we are providing quality and relevant sessions for all visitors.

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
M Brunsdon	Tavistock	£3,141.80	£3,141.80	06/12/2023	29/02/2024	TV049
FiPL has helped dig out intrusive weeds such as docks and sow wildflower seeds in exposed soil, laying hedge along boundary with Church Hill.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
J & RJ Steer and Partners	Gulworthy	£6,504.14	£6,504.14	15/11/2023	31/03/2025	TV052
FiPL has funded building a Sand Martin wall next to the pond created in a previous FiPL project and installing three leaky dams and three scrapes to improve the quality of water flowing through our farm and to create new habitats for nature.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
South Haylands Farm	Callington	£30,486.13	£30,486.13	03/01/2024	01/03/2024	TV053
FiPL has funded planting new hedges to link existing habitats. Enhancing a unique habitat where adders are present on Kit Hill, introducing larger hedgerow trees (with stakes and protection) to increase biodiversity and carbon sequestration. Protecting these new and improved areas from livestock with fencing, which will also enable us to better manage and graze the fields. Tawny owl nest boxes, to encourage the Tawny Owls we have on farm to nest and breed here. Educational resources to help us deliver our educational visits to school children as part of our Countryside Stewardship application.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Tamar Grow Local CIC	Callington	£7,655.99	£9,277.26	09/02/2024	31/03/2025	TV059
FiPL has helped fund Improving access to the vineyard via the 60m access track. Hosting a dry stone walling course to help with restoration for 8m of the traditional lime mortar stone wall, and planting traditional fruit and flower bulbs along the wall after restoration						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
A Phillips	Latchley	£8,948.81	£9,548.81	29/05/2024	28/02/2025	TV060
FiPL has helped fund hedge laying/casting up, management and creation of wetland through leaky dams, remove 180m redundant deer fence and woodland biodiversity management project						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Ms P Palmes	Bere Ferrers	£8,256.00	£8,256.00	26/03/2024	31/03/2025	TV061
FiPL has funded hedge laying and volunteer days from Tavistock Taskforce.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Pentillie Castle & Estate	Saltash	£700.00	£700.00	04/01/2024	19/01/2024	TV062
FiPL has funded a course to provide students with the skills they need to undertake hedge laying on their own farms or as part of their work.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Rumleigh Farm Limited	Bere Alston	£9,620.59	£14,655.14	23/08/2024	31/03/2025	TV063
FiPL has helped fund organic apple juice production and developing/maintaining our traditional Heritage Tamar Apple Orchard.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
S Mollard	Milton Combe	£7,177.78	£7,177.18	16/02/2024	27/02/2024	TV064
FiPL has funded replacement of failed stock proof fencing around spring fed pond to protect earth banks and habitat from livestock. Pond restoration of long abandoned ponds by clearing vegetation within pond and overhanging tree branches. Coppicing overgrown hedge and planting up gaps with native hedgerow shrubs. Hedge laying of hedgerow border to woodland to provide sunlight to enter edge of woodland floor, beneficial for woodland flowers, butterflies and insects.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Pentillie Castle & Estate	Saltash	£14,199.00	£14,656.14	29/02/2024	31/03/2025	TV066
FiPL has helped surveys of various species of birds present on the Pentillie estate including natives, migrants, owls and birds of prey. To include visual and sound surveys, nest box erection and monitoring, mist net and ringing surveys. Volunteer training programme to encourage community involvement in the monitoring programme.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Elwell Gardens	Bere Alston	£10,358.61	£10,574.37	09/02/2024	31/03/2024	TV068
FiPL has helped to provide guided experience of nature, growing and the land for marginal and vulnerable groups, for the purposes of health and wellbeing. To re-establish the orchard, which was part of the Tamar Valley heritage in fruit production. To carry out planting in the field adjacent to the railways line (in case of re-opening of the railway takes place, as the existing tree line will be significantly impacted)						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Okel Tor Mine	Calstock	£41,448.00	£41,488.00	15/02/2024	31/07/2024	TV070
FiPL has funded replacing wooden fence, gate and handrail, boardwalks and viewing platform and repairing steps on permissive and public footpaths. Conducting a drone survey of the mine chimney to assess structural condition.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Tamar Valley National Landscape	Gunnislake	£6,100.00	£8,450.00	15/02/2024	30/03/2025	TV072

FiPL has helped fund a pilot project led by Pollenize to improve pollinator resilience and generate public engagement on the former Drakewalls Mine site by planting at least 100m2 of wild meadow mix customised to the needs of the area.

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Rumleigh House	Bere Alston	£2,567.42	£2,567.42	16/02/2024	31/03/2024	TV073

FiPL has funded reinstatement of historic small cherry orchard comprising a minimum of 20 Tamar Valley cherry trees and 6 Tamar pear trees

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
M Singh	Bere Alston	£1,194.44	£1,194.44	16/02/2024	31/03/2024	TV074

FiPL has funded planting 52m hedgerow with variety of native and other hedgerow trees and shrubs

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Wheal Farm	Callington	£9,520.15	£8,588.57	28/02/2024	30/09/2024	TV076

FiPL has helped fund habitat creation of planting mixed species hedging purchase of poultry sustainable mobile field shelters

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
K Kent	Plymouth	£5,992.00	£8,588.57	29/02/2024	31/03/2024	TV077

FiPL has helped fund historical report, structural engineers report and surveys of the Tithe Barn at Warleigh Barton for repairs to made through the Historic Building Restoration Grant.

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Todsworthy Farm	Gunnislake	£4,455.18	£4,755.18	12/06/2024	01/02/2025	TV083
FiPL has helped fund creation of an accessible track from the traditional orchard and public footpath to an old established flower meadow in the next field which can then lead as a loop back onto the road. Restore the old traditional trees by pruning. Plant new fruit trees and protect with tree guards within the traditional orchard.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Hill Pony Resources	Callington	£12,715.37	£12,715.37	06/06/2024	31/03/2025	TV084
FiPL has funded creating of new hedgerows and wildlife habitat.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
G Court	Callington	£13,080.28	£13,528.28	06/06/2024	31/03/2025	TV085
FiPL has helped fund restoration of natural hedgerows with remedial works of banking and casting up, laying and repairing stone bank to original states. Infill with a selection of native hedge plants where required. Providing four bee hives with native bees as there are now several orchards and wildflower meadows locally. Provision of barn owl box. Provision of small nesting boxes suitable for bats and small mammals.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
The National Trust - Antony	Antony	£53,653.20	£91,272.00	20/09/2024	31/03/2025	TV086
FiPL has helped fund provision of a compost facility that will ensure we can use the waste produce on this site. Ensuring materials are recycled to improve soil condition and improve plant health ensuring the living collection is better looked after.						

Applicant/Business Name	Location	FiPL grant awarded	Total project cost	Project start date	Project end date	Reference
Ramsham Farm	Tavistock	£18,331.23	£18,331.23	19/06/2024	31/12/2024	TV087
